

I love you lots
and I thank you for
everything you are to us!

Love, Luyen Do.

P.S.: I'll try to take care of your
beloved student. He'd better not
get on my nerve... ㄟㄟK. He's
great.

Dear Dr. Sutherland,

Words are not enough to let you know how thankful I am to you. You have been such a blessing to my life as a friend, a professor, and a mentor. Thank you for your encouragements and advice for grad schools. Thank you for showing me kindness when I was ready to give up on myself. You make me want to do better, to strive harder in grad school or in anything I do in the future. I hope to be able to come back & visit you with excitement and love for the science that we share.

< Don't know if that
make sense... sorry
but u get the pt ㄟ >
