

July 19, 2013

Dear Jennifer,

Thank you so much for helping organize the 2013 ACU Undergraduate Research Festival. Without you and the other committee members, the Festival would not have happened, much less have been the success it was. I'm very grateful the roles you played on the judging and contest committee. I appreciate your work particularly the day of the Festival in organizing the judges and tallying the results. Awards would not have been given without you.

I cannot thank you enough for your help this year. I hope that you will continue to be part of the Research Festival in the future whether serving on one (or more) of the committees or mentoring future researchers (or both).

Thank you again,

Autumn Sutherlin, Ph.D.
Director of Undergraduate Research
Abilene Christian University
