Dear Dr. Drachenberg,

I just wanted to take a minute to thank you for your help during an extremely difficult situation. The COVID tracker you created to help us track trends and the information you provided was invaluable to the health district as we awaited the creation of our new database to help manage COVID data. The fact that you saw an opportunity to serve by using a skill that was very much needed and willingly allowed us to have free access to your work did not go unnoticed. You saw a need and instead of criticizing, reached out to offer help. Your kindness has been a blessing to me and to our staff and I wanted to make sure you knew your gesture was so appreciated! We welcome any input you have to better our services to this wonderful community. We are better together!

Be blessed and stay well!!

With much gratitude,

Annette Lerma
