thanks

Kelli,

Thank you so much for writing to doctoral programs on my behalf! Your mentoring of me has been an indescribable gift over the last five years. It was conversations with you in Oxford that originally started me thinking about a life of scholarship, & so have much to thank you for my current trajectory. I also appreciate you allowing me to work as your GA - I learned so many valuable things from you in our weekly visits! Wherever I end up next, I will miss seeing you consistently, but I look forward to life of friendship, mentoring, & scholarly exchange with you!

Thanks,
Ethan
