

Dear Dr. Elliott,

I just wanted to take an opportunity to thank you for being such an amazing professor and mentor to me and to the rest of the class this year. Your class has been my absolute favorite and has really encouraged me in my desire to be a history teacher someday.

I have also greatly appreciated listening to your viewpoints in class on the church and on women's roles in the church. I greatly value your unique thoughts and the way you continuously challenge us to think in new and innovative ways. You have made history relevant to my education, my career, and my spiritual life. I am so grateful for all the time I have spent learning from you in your class and outside of the classroom. I look forward to future participation in Phi Alpha Theta and the History department.

Sincerely,
Sarah Holley and the Women of Cadence

Kenly Elliot
