to bcc:

Dear all,

This is a reminder about the graduate school information session and application materials workshop being held TOMORROW in the Department of History office, Admin 324, from 2 to 4 pm.

If you are currently working on your CV, cover letter, and writing sample, need some guidance about the application process, or just want to know more about graduate work, this event will be helpful to you.

Several professors (Williams, Shilcutt, Morgan, and Elliott) will be available to talk with you and provide editing and specific feedback on your application materials, or just to answer any questions you may have. All of us will be able to speak directly to graduate work in history, but this event will be helpful to any student who is considering graduate study in the humanities or social sciences, including law school. Feel free to pass this information along to friends outside the department of history.

best wishes,
Dr. Elliott
