What did the teacher do that was effective? Be specific and name the actions that helped you as a learner (for example, particular assignments, discussions, presentations, etc.)

Used study guides
Dr. Cha's readings were effective and correlated with the material we learned in class. All of the readings were great in order to prepare for the exams.
N/A
Taught well
None
Very enthusiastic during lectures and well prepared. Did a good job leading class discussions.
Cha was very understanding if we had to turn something in late or if we could not be in class, he is a great teacher and really challenged us to think
I thought the quizzes were helpful cause they helped prepare for the exam as well as facilitate discussion.
SOME class discussions were helpful. Especially when we broke into groups to discuss things.
super nice
Good group conversations.
He was always prepared for class and was able to answer questions.
Information Presented in-class
Allowed us to Review our Quizzes and Exams, most classes dont let you see your grades
He was very understanding about situations.
Powerpoints and study guides
I liked the reading that were in files. They were interesting and challenging.
He incorporated a lot of external sources to his teaching other than the main text.
reading articles by writers like heschel, wolterstoff and others really helped put into perspective the message that the prophets tried to share. The need to be a people with the willingness to serve our neighbor. Getting involved in ministries also compelled me to want to be more involved directly with wanting to adhere to the call that God has given us even if I do not have much, I can at least give me time.
Dr. Cha was always very understanding of the students' circumstances and was willing to help out in any way he could.
Amos Oral interpretation was a fantastic assignment.

What specific recommendations do you have for the improvement of this course? Name some particular actions that the professor could take to improve learning in the class.

The teacher NEEDS to allow the students to have access to their grades at all times
A more detailed exam review.
Have a lecture that engages more with the class, more group discussions.

Maybe spread reasons out slightly differently or offer extra credit to make up for missed or failed quizzes.
Powerpoints put the information on there

Posting of grades online so that students can actually keep up with the class and where they are at. It's hard to find out how you are doing in a class when you have to email a GA and all they tell you is the letter grade, there is no way of knowing if it is high or low.
none
Less quizzes.

The non-biblical readings were oh so very long and hard to grasp. Make them shorter and more to the point.
He gave a lot of extensive readings that were very long and to intense to understand
The professor taught his personal political views, which was irritating at times. This is a Christian school in Texas, his views were different from everyone in this room. I respect his opinions, but teaching about them and saying he understands why every other country hates America was unsettling and discouraging. Also, his readings were too lengthy and irrelevant.
None
Readings were way too lengthy. Considerate lengths would be appreciated.
One thing that i would like to see more off is class discussions on what we may have struggled with when reading scripture. It is nice to obtain scholarly knowledge but it would also be great to be a class that tugs at our hearts to strive for God in a prophetic view.
Make the quizzes harder at the beginning to reinforce the importance of completing the reading assignments.
I'm not sure.
