What did the teacher do that was effective? Be specific and name the actions that helped you as a learner (for example, particular assignments, discussions, presentations, etc.)

The readings.

quizzes- if we didn't have them i would not have read the material needed for class

knowledgeable of the material and was accessible to the students

They engaged they students and encouraged us to give our opinions. They were always respectful of everyone's opinion even if they didn't agree with it.

He always covered the nights before reading in a PowerPoint to help us truly grasp it.

He made it funny

Good PowerPoints, lectures

Very understanding and helpful if there were any questions

.

The lectures everyday were well organized and prepared. The exams being so similar to the quizzes was a great help and made it easier to maintain the info that was important for the course.

He is extremely thorough and fun! He makes class a joy. His powerpoints and lectures are all very well thought out and address the subject well.

The way he engaged the class was awesome. Also the quizzes were awful at first, but now I'm so happy he made us take so many.

Professor Cha is a great bible professor who explains all the idea we need to learn. He answered all questions and stayed enthusiastic in the discussions, even though we are an 8 am and it was really hard to get us to participate, but he did a great job engaging all 40ish of us who were still half asleep.

He also took a great interest in his students, how they were doing and feeling and that is appreciated.

Thank you, Professor Cha, and have a great time in China with World Wide Witness!

His power points went directly along with what we read the night before, what was on the quiz and was then on the test.

I liked how he went over the quizzes and their answers after we took them.

He was enthusiastic about the subject and had group discussions.

Super wonderful wisdom gained from daily readying the bible

Very helpful

Works with students

Humor helps a lot when teaching. It made me want to learn more but he also kept the audience.

I like the readings especially since we were able to use notecards, it helped me pay more attention and pick out information that could be really important for a quiz or test.

He gave great power points that were very effective during his lecture.
Discussions and notes after we had already read and been quizzed over a certain chapter, which makes it easier to remember details about them.
Kept us involved in the discussion and had us do 'essays' at the end of every class to sum up what we went over in class that day.
Quizzes everyday forced you to read and if you read you did well on the quizzes and therefore the grades would help your overall grade. we also did essays at the end of class that made us think about what we learned in the lecture and really learn to think for ourselves and form opinions about certain subjects.
He went over the course material in a way that caused me to think critically and really challenge me as a Christian to know more and to learn more.
What specific recommendations do you have for the improvement of this course? Name some particular actions that the professor could take to improve learning in the class.
To constantly update our grades.
it would be nice to have all of our grades displayed
Post the readings earlier than the night before the quiz.
We took a lot of quizzes. Sometimes it became overwhelming. Maybe he could cut down on the number of quizzes he gives his students. Keep it at a reasonable amount.

I like the class the way it is
.
Be aware of the ideas you push. You should be teaching how to think and interpret the bible for yourself based on background knowledge. Teach HOW to think, not WHAT to think.
Nothing, it was an amazing course with an amazing teacher!

The only thing that could have improved this class for was if it was later, which is out of the professors control.
I really enjoy having Dr. Cha as a professor and think he did a great job teaching the class.
Maybe keep the grades more up to date.
Maybe go a little lighter on the quizzes.
Less quizzes!

The reviews are too broad.
Not so many group quizzes, not everyone likes them.

Nothing that i can think of, professor was very on top of things.
More concrete notes that more directly pertain to what we need to know and will be tested for
If you want to mix it up some try giving a shorter lesson and then ask for thoughts and discussion instead of just turning it into discussion, especially for an 8am class.
I honestly don't have any improvements off the top of my head. I loved the class as it is.
Being more understandable, some times i didn't get what he said at first.
