COMP 471
CRN 15294
Fall 2008

1. What did the instructor do that made his or her teaching effective?
 - Used power points and you tube videos!
 - She gave us visual and oral stimuli and a variety of activities that allowed us to apply our knowledge. She also used a variety of teaching material such as movie clips, power points, etc.
 - Great examples and explanations! Loved the videos.
 - Giving us a review and letting us work on them during class very helpful!
 - Personal experience. Group work.
 - I enjoyed the class and felt that the teacher answered all questions.
 - Made everything very understandable.
 - She provided hands-on activities, visual aid, and life application.
 - I loved the way Dr. Austin was so enthusiastic about this class, it made coming to class so enjoyable.
 - The reviews for the tests were wonderful! And I liked how we got to work on it in class.

2. What could the instructor do to improve his or her teaching effectiveness?
 - Make the subject more experiential.
 - Explain the assignments in more detail. What she wants exactly and how she wants it written.
 - She could be more interactive with students. Seemed annoyed by questions and interruptions. Have more fun with teaching and mix it up a little.
 - Give more instruction on what to do with the unit assignments.
 - I think there should have been more group work in class and more activities.
 - Nothing.
 - Not go through the slides so fast.

3. Write any additional comments or encouraging notes you would like to make.
 - Thank you for a wonderful semester!
 - I was disappointed in this class. Assignments were more for that of a teacher and not an SLP. Her work was long and tedious and didn't seem very effective to me!
 - I enjoyed this class. Learned a lot.
 - Best teacher I have had at ACU.
 - I have really enjoyed this class and I have learned a lot.
 - Dr. Austin really knows her stuff when it comes to inclusion in the classroom.
 - I liked the projects. They weren't too difficult but they helped me understand better by applying.

Fall 2008

657.01
2,

1. What did the instructor do that made his or her teaching effective?
 - I liked going out to Kenley to perform an assessment. It allowed us to put into practice what we have learned in the class.
 - Continue to provide lecture outline prior to lecture. This helps students follow along with organized thoughts versus being vague or confused in lecture.
 - Was very enthusiastic about the material.
 - Practice sessions. Guest speakers. Clinical experience.
 - Very enthusiastic about the subject and made learning interesting.
 - She incorporated different methods of learning like power point and video clips. Was very interactive.
 - Used different teaching techniques that kept class interesting.
 - Was very passionate about the subject matter.
 - I really liked all the video clips she showed. They are so helpful! I also really appreciated interactive activities to help us learn.

2. What could the instructor do to improve his or her teaching effectiveness?
 - Explain more clearly before handing out assignments.
 - Don't go so fast. I know it is a lot of information, but it felt like a blur. Longer breaks and stick to the allotted time for class.
 - Slow down a bit and don't rush through the material as fast.
 - Give power points in advance.
 - Not trying to put so much information into one class period-it was overwhelming to process so much in so little time.
 - Maybe show more examples of assessment and other projects before we actually have to do it.

3. Write any additional comments or encouraging notes you would like to make.
 - The Kenley evaluation was VERY helpful!! I enjoyed the class.
 - Some of the material covered in this class was completely new and helpful, but some of it was very repetitive. I felt like we learned some of the same things in 3 different classes.
 - Good job.
 - ☺
 - Thought she did a good job and was very easy to talk to and was very helpful when needed.
 - Really enjoyed this class-learned a lot. Merry Christmas! ☺
 - At times I felt that too much information was put into one class session, making it difficult to retain the information.

1. What did the instructor do that made his or her teaching effective?
 - Very thorough. Chose great outside readings. Culture presentations good.
 - Was very prepared.

2. What could the instructor do to improve his or her teaching effectiveness?
 - Dr. Austin talked so fast and would not put power points online for us before classes so it was very difficult to keep up with her lectures. She has so much good and valuable information related to this subject, but sometimes I think it was presented over our heads or in a way that was too idealistic, especially when referring to testing or interpreters. What she said was very different than what I have actually experienced. I also felt that her expectations of us were very high with multiple, lengthy readings each week as well as other assignments, when criteria and expectations for assignments were a little confusing or changed each time.
 - I felt material was somewhat rushed in lecture.

3. Write any additional comments or encouraging notes you would like to make.
 - I thought the course work was great in keeping with appropriateness of a graduate level. However, I did feel that expectations in completing all readings and work made it difficult to complete in a timely manner.
 - Thanks!

Question 15. The instructor modeled effective teaching strategies.
Question 16. The course material was intellectually challenging.

What did the instructor do that made his/her teaching effective?

- She was very enthusiastic about the topic. She was very accessible to her students.
- Gave lots of examples. Good at explaining when confused.
- Very organized and clear-always well prepared
- She was good about having a visual aide (Power point) during each of the classes.
- Pulled info from many different places to introduce.
- Multi-media presentations
- Gave us opportunities to practice teaching skills Putting the power points online!!!
Thank you! Thank you for providing examples of projects for us! We're visual learners.
- Her lessons were clear and easy to understand.
- I Like that she provided written notes
- Gave examples from experience and showed videos.
- Power point, Trip to Abilene Christian Schools

What could the instructor do to improve his/her teaching effectiveness?

- Slow down when teaching
- SLOW DOWN! It's hard to take notes when she goes too fast!
- Do more group activities
- Maybe more exams. There is too much to remember w/out being regularly tested
- More interactive activities-not just lecture
- Can't really think of anything.
- Not move through slides so fast. It discourages students from taking notes.
- Have more fun with students, Don't just lecture, less time consuming work

Additional comments:

- You are a great teacher!
- Thanks!
- GREAT JOB!!
- Thank you !!!
- We wish you taught more classes!
- Great teacher! Really enjoyed having you!

Lynette Austin
COMP 330
CRN 14532
Spring 2009

1. What did the instructor do that made his or her teaching effective?

- Provided study guides for tests.
- Bringing in outside videos, child observations etc...loved how we had discussion, learned so well that way!
- I enjoyed that class was generally presented in a lecture/discussion format. Staring at power points all day can get old and I found this environment to make paying attention much easier.
- She was very prepared every day with you tube examples that were additionally informative to her lectures.
- She clearly explained the material and gave great examples to tie everything in.
- She was very enthusiastic about the topics and explained thoroughly.
- She provided enough information to use so we never had to question what was going on.
- Well said, good teaching method.
- Interesting and nice.
- She engaged the students in her lecture by using good power points and fun videos for observation.
- I loved the you tube clips, watching the children and seeing the things we were learning actually happening made it so much easier to comprehend.
- Examples, you tube videos, personal experience. Going over a topic that the class didn't understand the first time. Knew answers to almost every question.
- She reviewed material very well and took time to answer students' questions.
- She was excited about the subject and it became clear through her use of different medias to help students understand the important basic concepts of development. She entertained all types of learners.
- She used clips in class that made material easier to understand and fun.
- Had engaging lectures utilizing power point, you tube, the whiteboard with diagrams, linguistics guide.
- Used clips of kids as examples of what we talked about.
- She was very reachable and informative when asked for help.
- Gave real life examples by using video clips.
- Showed clips of things that related to what we were talking about.
- I liked the you tube videos and personal examples, bilingual lesson-very interesting!
- Giving a review sheet for tests and power points.
- Plenty of examples.
- Used power points and wrote on the board.
- You tube videos.

2. What could the instructor do to improve his or her teaching effectiveness?

- Power point and not read straight from book.
- Provide power points to help organize information.

- Give reviews for test way sooner than one day before the tests. Review for tests in class. It doesn't matter how much you review the test as long as you learn the material. Help students do better.
- Give out the test review early, not the class before the test. Explain grading better. Don't call students out unless you have to, it's embarrassing.
- A lot of information for one semester!
- Not focus so much on the abstract, use more info that I really feel like I could use in my career. Some of the very abstract concepts did not seem very necessary. Use more power point.
- Give us a review at least 2 days before an exam instead of the night before. Putting things on the test that is NOT in the book or our notes!
- None
- She is great. Love her detailed class instruction.

3. Write any additional comments or encouraging notes you would like to make.

- More examples. Lecture is fine if it's not something I have already read.
- Great class! I learned so much! I never had a hard time paying attention. Material was taught so well, I always felt prepared for tests. Great job😊
- Dr. Austin is very enthusiastic about language and that translated into how well she presented material.
- This professor was incredibly enthusiastic and supportive of the profession into which we are entering! Very encouraging!!
- She was very passionate about her job and cared about her students. I honestly thought she was a professor for a while because she taught very effectively.
- Great job!
- I would not recommend this class to anyone. If you have to take it at least strive for a C.
- Great class! My favorite one! Loved the you tube videos😊
- I enjoyed this class very much!
- She is so sweet and helpful.
- Awesome class!
- You are an excellent teacher. I thoroughly enjoyed learning from you and look forward to doing so in the future.
- I enjoyed Dr. Austin. She cares for her students and is always smiling. She is always willing to work outside of class if needed.
- Great job😊
- I encourage other SLP students to take this course.
- She is a great teacher.
- Great teacher.
- Good class!
- Great class!

Lynette Austin
COMP 670
CRN 14543
Spring 2009

1. What did the instructor do that made his or her teaching effective?
 - Really enjoyed the panels.
 - Loved the panel discussions and guest speakers.
 - Power points, group discussions, guests.
 - Power point, you tube☺, giving us options to choose from at the beginning of the semester; both panels were great!
 - I appreciated and learned a lot from the panel discussions. Thanks for making the content of the class useful and applicable for us. I appreciated no tests in the class, but assignments that made us learn the material.
 - Brought in guest speakers and panels to discuss professional issues.
2. What could the instructor do to improve his or her teaching effectiveness?
 - Response papers felt a little redundant after a while, but did initiate good discussion.
 - I wish she would post her power points before class and I really wish she would have been more open to less structured class discussions. I felt like we had discussions, but only about her topics.
 - More class discussion for response papers-they seemed like "busy work" (for lack of a better term) because we didn't talk about them in class. Posting power points before class would guide note taking and make it more beneficial.
 - Cut out the response papers. We didn't even discuss questions we addressed in our papers in class. I felt like it was just busy work.
3. Write any additional comments or encouraging notes you would like to make.
 - Thanks for a great semester.

Lynette Austin
COMP 609
Maymester 2009

1. What did the instructor do that made his or her teaching effective?
 - Class discussions, case studies.
 - Used different teaching styles.
 - Teacher used you tube methods and movies for other strategies. She had GOOD teaching.
 - Good job keeping attention by changing up activities. Very enthusiastic.
 - Great examples! Professor does a great job simulating real situations. She keeps our attention with good relative videos and clips.
 - Great job keeping my attentions. You made this class much more enjoyable than I thought was possible!

2. What could the instructor do to improve his or her teaching effectiveness?

No answers

3. Write any additional comments or encouraging notes you would like to make.
 - Awesome class! I learned so much!
 - Really enjoyed the class.
 - I found the class very interesting. I feel like having it as a week long class helped me learn more.
