What did the instructor do that made his/her teaching effective?

He the class interesting.

Use of visual aids!

Mrs Austin was passionate and friendly!

Followed the text book and gave thorough explanations; showed lots of video clips/other resources.

Dr. Austin was accessible to us. She asked for our input on class and how she could make class better. Her analysis assignments and videos made class enjoyable

Stories and examples helped. Also, chances to use the skills we were learning about and applying the concepts really helped them to stick.

Videos, projects, and assignments really enhanced my experience and helped me to understand the course

Video clips, passionate about subject, very knowledgeable!

Video clips were helpful.

Made class interesting

She cared about the students, used powerpoints, used YouTube videos, discussed topics thoroughly.

What could the instructor do to improve his/her teaching effectiveness?

Nothing

More hands on material

More detailed test reviews

Not go quite so fast focus on explaining the skills needed for the assignments more

If more group projects are assigned it would be good to have less group members. It was so hard to organize the project when some people didn't have any interest in finishing in a timely manner.

Slow down!

NA

There should be a syntax class which is required for the degree. Not much instruction on the topic

Write any additional comments that you would like to make.

You are awesome!!:)

Great class!

Thank you!

Thank you so much! Thoroughly enjoyed the class!

Appreciated the notecards we got to fill out midsemester

1. What did the instructor do that made his/her teaching effective?
 - She used a lot of personal accounts and stories from experience. She utilized good video clips and other resources such as the guest speaker. Gave great research and explanation behind what she was teaching. Recommended/mandatory readings were very helpful.
 - Great lecture! She was super knowledgeable! Very well prepared and passionate about topic!
 - I loved learning this subject. The professor was very enthusiastic.
 - Provided us with personal stories.
 - Was enthusiastic about subject. Provided relevant materials, examples and info.
 - Great class! I really liked the interactive/involvement of this course and the open communication and willingness to discuss questions.
 - Provided a lot of outside resources which will be useful in future practice.
 - Dr. Austin helped me gain a better sense of understanding and appreciation for how to help future clients that maybe from different backgrounds. She is passionate about this topic and provided us with a lot of useful resources.
 - LOVE the power points-they are so useful and informative! The selected readings and textbooks were amazing and easy to read and follow.
 - Used multiple resources to further explain the material.
 - I really liked learning about different cultures in the presentations of other students.

2. What could the instructor do to improve his/her teaching effectiveness?
 - With the amount that had to be taught and the time made available she was efficient. I'm not sure how else to improve-I feel like I've learned a lot.
 - I would have liked to actually see/been exposed to some actual therapy. Whether that be therapy with a monolingual therapist or a bilingual therapist.
 - I would have liked to have learned about other dialects of English, not just about bilingualism.
 - Be attentive to the needs of the students. At times it felt that the only goal was to get through the power points. 8 hours is a long time to be talked to. Group activities/interaction during class would make the material more interesting.
 - I wish we could have done some more hands on group activities that specifically gave us some practice with therapy and or assessment.
 - Maybe a little more break up of lecture; more group activities or discussion.
 - Decrease the amount of readings required each night-almost impossible to get it all done. It would give more time to work on projects due at end of the week.

3. Additional Comments:

- Thank you so much! I really learned a lot from your lectures, the readings and this class overall. Great job! Readings were a bit intense for a short course.
- The professor repeated herself a lot. This is a positive thing since the material was reinforced, but sometimes I felt she repeated herself too much. The professor did a very good job!
- I don't know if this is possible, but if the class can be broken up, or just not so crammed I think it would be better! A bit overwhelming.
- Guest speaker was very interesting and educational.
- She's wonderful!
- Enjoyed this class. Wished it were a semester long! Lots of learning in one week.
