What did the instructor do that made his/her teaching effective?

Powerpoints

showed great enthusiasm!

She was enthusiastic, passionate, and invested.

Very well organized lectures with videos that helped me to understand the material

Much knowledge was gained from powerpoints, video clips and assignments.

Loved that she used plenty of YouTube videos for examples.

very knowledgeable, enthusiastic, and accessible

Dr. Austin has wonderful power points, video examples, and personal examples integrated through her lessons.

Good organization, structure preparedness, enthusiasm and answering of questions. Incorporation of videos and other resources to reinforce material.

Knew what she was talking about and patient with our questions

Lots of visual items to go along with lectures

The Units, though sometimes confusing (or inconveniently scheduled), forced us to put our thoughts in order and make sense of something completely new. I also really thought the textbook was well-outlined and comprehensible for a textbook. Stories of experience also helped.

Interactive classes, video demonstrations, and a clear passion for teaching us! I always have to work hard for a grade in Dr. Austin's class and I actually appreciate having to do so. It's inspiring to have a teacher who is so experienced and is encouraging us in our choices to be SLPs.

What could the instructor do to improve his/her teaching effectiveness?

Help be more prepared for tests

I love Dr. Austin! She's a fabulous teacher and makes the material easy to catch onto.

I really loved having you as a teacher!!!

I always have to work hard for my grade in Dr. Austin's class and I actually appreciate having to do so. It's inspiring to have a teacher who is so experienced and is encouraging us in our choices to be SLPs. I hope I have Dr. Austin again.

What did the instructor do that made his/her teaching effective?

Several group work activities were helpful.

The instructor's classes were well planned and VERY informative!

Thoroughly discussed assessments including formal and assessments

She had videos that really helped me understand what we were talking about!

I liked the essay tests. We had to apply what we learned!

Answered all of our questions effectively

The projects on assessments helped me better understand how and what assessments are all about.

Lectures were informative and specific previous reading assignments. The required assignments were practical and very helpful.

I felt that we were appropriately prepared for our experience at Kenley from this class, and everything we did in class was useful!

Used powerpoints and adequately described material.

Knew the materials well

Very thorough with everything, helped me learn a lot

Used powerpoints and discussed material thoroughly.

What could the instructor do to improve his/her teaching effectiveness?

Nothing

n/a

Allow students to fully ask questions or comment without cutting them off too quickly.

nothing! The class was really informative

Allow enough time for students to ask questions.

Write any additional comments that you would like to make.

Really enjoyed this class!

I really enjoyed the class and learned soo much!!

Great class! I learned a lot!

I really enjoyed the teaching style of this professor. I feel prepared to assess and provide intervention. Overall great class

This class was extremely well organized. I really enjoyed it, and I feel like I learned so much!

I felt she was less approachable toward the end of the semester and had a lot going on.

In the future I would suggest being careful about who you invite to certain things. One particular student bragged to other students about being asked to come to an event.

What did the instructor do that made his/her teaching effective?

She was great

knew the course material really well

The Kenley project helped alot! I now feel pretty confident about conducting therapy!!

I liked Kenley and the reflection assignments.

I LOVED KENLEY!!!! Don't ever give it up!

I really enjoyed the Kelley experience. From the way we worked in groups to the individual time with the kids, it was great.

The Kenley Project was helpful in learning to write goals and objective that were designed based on theory while meeting functional needs of the children we worked with.

The blogging was hard to keep up with, but necessary for learning.

I enjoyed working with the children at Kenley. The instructor gave great feedback in helping us become better clinicians.

Incorporated lots of functional experiences such as the Kenley experience! I was such a joy to get an introduction to language therapy at Kenley and thoroughly discuss a variety of language disorders, approaches, and techniques.

Our time at Kenley was extremely helpful in bringing the classwork into the real world.

What could the instructor do to improve his/her teaching effectiveness?

Nothing

nothing! She is a great professor!

I wish the rest of the treatment plans were taken into consideration instead of just the first treatment plan.

n/a

Examples of goals for all of the areas that we discussed.

Powerpoints presentations for lectures would be helpful because I felt very disorganized in confirming the professors opinion of literature.

Write any additional comments that you would like to make.

Loved Kenley. Was a good way to apply class material

loved the class!

Learned a lot in this class!

I learned so much from this class, and I feel much more prepared for the real world because of it!

She was always willing to give her personal experiences in her practice & explore controversies and underlying issues that were related to this field
 She used many different teaching perspectives to help us learn the content.
 She was always enthusiastic and into the material she presented. She also gave us assignments that enabled us to have a hands-on approach to what we are Powerpoints and study guides
 I really liked how she put personal examples and stories to teach different topics. I also liked the integration of video clips. It helped me understand the her powerpoints were helpful
 she gave plenty of practical examples
 She explained the lessons in great detail and always took the time to help you understand.
 She was enthusiastic about the subject.
 The powerpoints and videos were helpful.
 Made all her materials accessible to the students, and provided plenty of opportunities to succeed in her class.

What could the instructor do to improve his/her teaching effectiveness?

N/A
 It was really hard to take notes in class while we were taking about them because she would change the slides quickly, so giving students more time to write
 I can't think of anything. Her teaching is already very effective!
 I think she is good to go
 More videos or something of that sort would help engage the students more. Or more group activities. It was hard to pay attention at some points because of nothing. she does a great job
 break things down a little more
 Provide a little more information for the assignments.
 Shorter points on the PowerPoint.
 Perhaps not run through the powerpoint slides so quickly, it was hard to keep up while taking notes even though the powerpoint slides were available to us on

Many of the assignments seemed to require a great deal of work for little return. For example, the SLO requirement took extensive research and several hours
