

wander

This logo is simple and features a bold typeface LSTK Clarendon. The typeface is a variation of the classic Clarendon, but it is a hand-drawn version made by Elastik Studios.

wander
MAGAZINE

This logo is based off of my own handwriting. I created the vector from a drawing I did of the word "wander". I also used the font Nexa Bold.

wander

This logo is a simple sans serif font called airplane. It was designed by Kady Jesko and was inspired by the jet era of the 1960s. I liked the modern but still vintage feel.
