

University General Education Council
November 21-30, 2016
Electronic Vote

One agenda item was sent to the committee for consideration via email.

Action Items:

I. CHEM 203 – Add to University Requirements Science Menu

E. Gumm - This is a proposal from Teacher Education and Chemistry to add the CHEM 203 course to the Science menu in the University Requirements. This course is parallel to the BIOL 203 and PHYS 203 courses that have already been approved for the Science menu. Please review the proposal, share any questions or discussions you may have by replying all to this email, and then if the group is so inclined, we can entertain a motion and second before engaging in an electronic vote or we can choose to table for face-to-face discussion.

No significant discussion occurred online. All members were comfortable moving forward with a vote.

M. Lynn made a motion to approve adding CHEM 203 to the University Requirements science menu. K. Hendrick seconded. All in favor. Motion passes.
