Approval of minutes from 5/4/2012 and 5/2/2012.

Motion to approve; seconded; all in favor; none opposed; motion passes

Dr. McKelvain spoke of the scope and practice of the committee and the importance of the overall quality in what council does. It is worthy of ACU's reputation. He spoke of the challenges and recurring difficulties that council faces from external factors – those that do not share the same values.

Dr. Rhodes is interested in our system and the way things come to be at ACU. He wants to ensure effectiveness and efficiency. New course proposals and new program proposals are currently being restructured.

MATH 361 – information only item. Offering changing from spring to fall.
