

Application for a New Course v10.5

Course ID <i>Subject and Number</i>	ENGR 434
Date APPROVED	
Date DENIED	

I. Systems and Catalog Information Complete each item.

1	Course Developer	Timothy Kennedy
2	Course Teacher	A faculty member in the Engineering and Physics department with a degree in Engineering.
3	Course Title	Fluid Thermal Systems
4	Course Abbreviation (if title is over 30 characters)	Fluid Thermal Systems
5	College	College of Arts and Sciences
6	Department	Engineering and Physics
7	Number of Credit Hours	3
8	Is the course Fixed Credit or Variable Credit?	Fixed
9	Is the course repeatable?	No
10	Maximum number of times course may be repeated	N/A
11	Maximum number of hours credit	N/A
12	Explanation for variable credit	N/A
13a	Course contact hours - LEC	3
13b	Course contact hours - Lab	0
13c	Course contact hours - Practicum	0
13d	Course contact hours - Seminar	0
13e	Course contact hours - Studio	0
13f	Course contact hours - Online	0
13g	Course contact hours - Colloquium	0
13h	Course contact hours - Field Experience	0
13j	Course contact hours - Internship	0
13k	Course contact hours - Research	0
13m	Course contact hours - Workshop	0
13n	Course contact hours - Other (specify)	0
14	Instructor Workload	3
15	Grade Mode (check all appropriate):	☒ Standard ☐ Credit/No Credit (undergrad only)
16	Maximum Enrollment	40
17	Catalog Description (50 words or less)	Design and optimization of thermal systems with real world constraints, as well as economic and design analysis. A formal technical written

		report and oral presentation are required.
18	List any prerequisites (course/s, test scores, class standing, major, etc.)	ENGR 333, ENGR 481
19	List any co-requisites	None
20	If the course is cross listed, specify the Course ID(s) MUST have signature in Section V off all Department Chairs	None
21	Does this course have any special student costs? Yes/No <i>Attach a <u>completed</u> "Request to Add or Change Course Fees" form. Describe in section IV-F.</i>	None
22a	How often will it be offered? Fall	Offered
22b	How often will it be offered? Spring	As Needed
22c	How often will it be offered? Summer	As Needed
23	Frequency? All, odd, or even years?	All
24	First semester this course will be offered <i>New courses may not be taught under their approved course ID until they appear in the catalog, therefore, no earlier than the coming fall.</i>	Fall 2015
25	List course/s that should be deleted, include the last semester for course/s being deleted <i>A course cannot be deleted when it is a requirement in a degree plan in any department.</i>	None
26	Is this course required for a degree/s? Yes/No <i>If "Yes," attach a revised degree plan(s) reflecting the placement of the new course.</i>	This course is an elective option for students interested in mechanical engineering topics. All engineering students must select 14 hours of engineering electives to complete their degree.
27	Should the addition of this course be retroactively applied to the degree plan it supports? Yes/no and explain	No
28	Has this course been offered as a Special Topics course? Yes/No <i>If "Yes," specify the Course ID and enrollment for each term it was taught. (Note: New courses are NOT required to be taught as Special Topics courses prior to being approved. However, courses may be taught once as Special Topics before it is proposed. See the Course Descriptions section of the Catalog for details.)</i>	No
29	List any courses in which content overlaps the proposed course. (Course ID and Name) <i>Attach statement from instructor/dept</i>	None

	<i>chair of existing course justifying the new offering in Section IV-D.</i>	
--	--	--

II. Curriculum

1	Degree Plan Explanation of how this course affects degree requirements.	This course is an elective option for students interested in mechanical engineering topics. All engineering students must select 14 hours of engineering electives to complete their degree.
2	Justification State the justification for adding this course to the current curriculum. Represent the need.	This course is an elective option for students interested in mechanical engineering topics. All engineering students must select 14 hours of engineering electives to complete their degree.

III. Course Design

1. Audience and Course Goal

1	Describe the intended audience, including prerequisite skills.	This course is an elective option for students interested in mechanical engineering topics. All engineering students must select 14 hours of engineering electives to complete their degree.. Non-majors interested in design of thermal fluid systems. Prerequisite skills are developed in ENGR 333 and 481.
2	State the overarching course goal(s) in performance terms.	1) Students will introduced to the engineering design process. 2) Students will develop skills in thermal process design utilizing knowledge of thermodynamics, fluid mechanics, and heat transfer. 3) Students will develop skills in technical writing and oral presentation.

2. Competencies and Measurements

ABET Learning Objectives	Course Competencies	Measurement
3(b) an ability to design and conduct experiments, as well as to analyze and interpret data	Apply design processes and procedures to design thermal systems.	Daily homework, weekly quizzes, exams 1 and 2, project, final exam.
	Develop and compute economic analysis for individual system components as well as life cycle analysis.	Daily homework, Exam 2, project.
3(e) an ability to identify, formulate and solve	Apply mathematical knowledge in design of	Daily homework, weekly quizzes, exam 2, project, and

engineering problems	thermal systems.	final exam.
3(k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice	Select and size components for thermal process design based on engineering specifications.	Daily homework, weekly quizzes, exam 2, project, and final exam.

3. Text and Resources

1. Give the full publication information of the textbook/s and other required resources and outside readings.
Design of Fluid Thermal Systems, 4th, by William S. Janna, Cengage Learning, 2015, ISBN 978-1-285-85965-1.
2. For **combined undergraduate/graduate** courses, make two lists:
 - a. full publication information; label **Undergraduate**.
 - b. full publication information; label **Graduate**. Indicate number of pages required.

IV. Supporting Documentation

Supporting documents must accompany proposal prior to preliminary approval by chair and dean.

1	Library — Submit new course application and syllabus to the Dean of the Library. Consult with the director and establish a deadline for completion of the library report. Attach the signed copy of the Library report.
2	Instructional Design — The application and syllabus must be reviewed by the Adams Center. Attach a copy of the Adams Center Review Letter.
3	Content Overlap — Include one document for each course you listed in Section I-I. Attach statement from instructor/dept chair of existing course justifying the new offering.
4	Departmental Resources — List the resources that support the course and are available only through the department, if applicable. Attach the list of the holdings and the location/s.
5	Resources — List resources (other than library or departmental resources) that are needed to support this course (computers, lab equipment, other technology, etc.). Attach a complete list of all items and indicate possible sources or estimated cost of each. List the sources of any needed funds.
6	Expenses — List additional expenses needed to implement this course (full-time or part-time faculty, graduate or lab assistants, student employees, travel, special student costs, room renovation, storage facility, etc.). Attach a complete list of all items, the estimated cost of each and the source of the funds.
7	Justification — Attach all documents referred to in Section II-2
8	Syllabus — Attach the syllabus for the course based upon the anticipated first-semester offering.
9	Provide documentation for all additional attachments here

V. Preliminary Approvals

All supporting documentation has been assembled and attached to this application. I believe this course is ready to be presented to appropriate councils. We have a plan to fund this new course.

Course Number and Name ENGR 434 Fluid Thermal Systems

Primary Department

Department Chair
