

Abilene Approval Chart for Curriculum Changes

A = Approve I = Information Item R = Respond In Writing

Course Number: ENGR 378 **or Degree Plan(s):**

ENGR 378- Introduction to Environmental Engineering Prerequisites

Was: Prereq - ENGR 333, CHEM 131, and CHEM 133, Offered Fall, even years

New: CHEM 133, Offered Spring

Rationale: Students do not need to have the ability to do fluid mechanics calculations in this class. This makes this course on par with similar courses in civil engineering programs elsewhere. Additionally, with these requirements, the course fits best as a spring course and will be offered every spring semester for the BS in Civil Engineering.

30.	Comprehensive revision of General Education Requirements	-	-	-	-	A	A	A	A	I

Notes

² Any change to a cross-listed course requires the signature of both department chairs or program directors overseeing the course to ensure that the courses stay in sync. This includes courses taught at other campuses (e.g. BIBL 101 and BIBO 101).

³ For undergraduate majors, a minimum of 30 hours is required. These programs must have a minimum of 6 elective hours, unless the requirements of external accrediting bodies make it impossible. Master's programs must include a minimum of 30 hours, and doctoral programs must include a minimum of 30 hours beyond the master's.

⁴ When a department/school or dean proposes closing a program, approval routing follows the typical process beginning with the department/school. An administrative proposal by the provost or senior vice president for academic affairs would follow the “provost-proposed” routing on the chart.
