	Change to General Education Requirements for Undergraduates (System)	Provost	Deans	Department Chairs	Faculty	Students	Parents	Community	Other	System
27.	Change course outcomes of an included course	A	A	A	A	A	A	-	A	I
28.	Add or drop a required course from the General Education Requirements	A	-	A	-	A	A	A	A	I
29.	Add or drop a course from a menu within the General Education Requirements	A	-	A	-	A	A	-	A	I
30.	Comprehensive revision of General Education Requirements	-	-	-	-	A	A	A	A	I

Notes

² Any change to a cross-listed course requires the signature of both department chairs or program directors overseeing the course to ensure that the courses stay in sync. This includes courses taught at other campuses (e.g. BIBL 101 and BIBO 101).

³ For undergraduate majors, a minimum of 30 hours is required. These programs must have a minimum of 6 elective hours, unless the requirements of external accrediting bodies make it impossible. Master's programs must include a minimum of 30 hours, and doctoral programs must include a minimum of 30 hours beyond the master's.

⁴ When a department/school or dean proposes closing a program, approval routing follows the typical process beginning with the department/school. An administrative proposal by the provost or senior vice president for academic affairs would follow the "provost-proposed" routing on the chart.

The current prerequisite for Chem 113 Introductory Chemistry is: "ACT math score of 21 or above; or MATH SAT (prior to March 1, 2016) score of 550 or above; or MATH SAT (after March 1, 2016) score of 570 or above; or credit for MATH 120 or above."

We would like to modify it to:

"ACT math score of 21 or above; ~~or MATH SAT (prior to March 1, 2016) score of 550 or above;~~ or MATH SAT ~~(after March 1, 2016)~~ score of 570 or above; or credit for MATH/MATW 109, MATH/MATW 120, or MATH/MATW 123 with a minimum grade of "C", or MATH 124 or MATH 185; or mathematics placement testing into MATH 124 or MATH 185 ."

Reason for changes:

Overall, this reflects the current practice (except the "C" portion). All of the rest of the things are exceptions we make to let students in the class.

MATH/MATW 109, MATH/MATW 120, or MATH/MATW 123 with a minimum grade of "C"

1. When this was written, MATW classes did not exist and so we would like to incorporate that option.
2. General Chemistry I (Chem 133) requires MATH 109, so we would like to make that the same minimum for CHEM 113.
3. Minimum grade of "C" - Often students' biggest struggle in CHEM 113 is the math portion of the class. If students make a D in those courses, they are not math ready for CHEM 113.

MATH 124 or MATH 185; or mathematics placement testing into MATH 124 or MATH 185

1. These are the current requirements for General Chemistry I (CHEM 133). Since this provides enough evidence of math readiness for CHEM 133, it should be sufficient for CHEM 113.
2. Now that ACU is test optional, the math placement testing gives the students a way to test into CHEM 113 just like they can into CHEM 133.
