

Abilene Approval Chart for Curriculum Changes

A = Approve I = Information Item R = Respond In Writing

As we look to modernize our course offerings, with expectations of adding courses in Data Science, Combinatorics and Graph Theory, and Complex Analysis we need the course catalog to better reflect our intentions of when certain courses that aren't required in degree plans will be offered. We are closing several courses, like the one below. We have no intention of offering this course in the future as we believe our new course MATH 473 - Complex Analysis to be a better choice for the future.

Course Number: MATH 483 - Analysis II

Notes

² Any change to a cross-listed course requires the signature of both department chairs or program directors overseeing the course to ensure that the courses stay in sync. This includes courses taught at other campuses (e.g. BIBL 101 and BIBO 101).

³ For undergraduate majors, a minimum of 30 hours is required. These programs must have a minimum of 6 elective hours, unless the requirements of external accrediting bodies make it impossible. Master's programs must include a minimum of 30 hours, and doctoral programs must include a minimum of 30 hours beyond the master's.

⁴ When a department/school or dean proposes closing a program, approval routing follows the typical process beginning with the department/school. An administrative proposal by the provost or senior vice president for academic affairs would follow the "provost-proposed" routing on the chart.
