Notes

² Any change to a cross-listed course requires the signature of both department chairs or program directors overseeing the course to ensure that the courses stay in sync. This includes courses taught at other campuses (e.g. BIBL 101 and BIBO 101).

³ For undergraduate majors, a minimum of 30 hours is required. These programs must have a minimum of 6 elective hours, unless the requirements of external accrediting bodies make it impossible. Master's programs must include a minimum of 30 hours, and doctoral programs must include a minimum of 30 hours beyond the master's.

⁴ When a department/school or dean proposes closing a program, approval routing follows the typical process beginning with the department/school. An administrative proposal by the provost or senior vice president for academic affairs would follow the "provost-proposed" routing on the chart.

As it has not been taught in years and is 1 hr on a long menu, this will have no impact on Biochemistry, Biomedical Science (BCH-BCBS) majors.

Autumn Sutherlin, Ph.D.
Chair and Professor
Department of Chemistry and Biochemistry
Abilene Christian University

Autumn,

The Department of Biology has decided to close BIOL 313 Cell Biology Laboratory. This class is an option on the Biochemistry, Biomedical Science, BS (BCH-BCBS) track. This class has not been taught in at least 15 years and we have no plans to teach it again. What are your thoughts for me to share with councils on removing this course from the catalog?

Thanks!
