
Abilene Approval Chart for Curriculum Changes

A = Approve I = Information Item R = Respond In Writing

Course Number: NURS 352

or Degree Plan(s): BSN

Rationale: In response to accreditation and regulation (CCNE and Texas Board of Nursing) changes in expectations, the BSN Program is undergoing a complete revision beginning with Program outcomes. The previous outcomes (Program and Course) were re-written to provide better clarity and transparency. All courses will undergo revisions in outcomes and course descriptions to align with the Program Outcomes. Additionally, over time, some course content migration has occurred so the BSN Program desires to better capture both expectations and actual content delivery with the updates. The actual content in the courses will not change.

Title (previous): Evidence-Based Fundamentals of Nursing

Title (new): Fundamentals of Nursing

Description (previous): Evidence-based Fundamentals of Nursing introduces students to the knowledge, judgment, skills, behaviors, and attitudes needed to understand and apply the evidence-based clinical reasoning, implementation, and evaluation within the nursing scope of practice.

Description (new): This course introduces students to the foundational knowledge needed to provide safe, holistic care to diverse individuals in non-complex settings. Emphasis is placed on evidence-based practice, developing clinical reasoning, communication, and Christian values in nursing. Students will explore professional, legal, ethical, and regulatory standards while engaging in self-reflection to support personal and professional development.

Student learning outcomes (previous):

1. As a novice, apply beginning clinical reasoning, and established evidence-based nursing competencies to holistically address and prioritize simple patient preferences, values, and needs.
2. As a novice, engage with patients in their care decisions, and demonstrate beginning communication skills and participate in shared decision making with the interdisciplinary healthcare team for the achievement of the highest potential and safe patient health outcomes.
3. As a novice, demonstrate basic knowledge of professional, legal, ethical, and regulatory standards for individual performance and identify elements of system effectiveness for safe nursing competencies, understand the decisions needed in the delegation of patient care to others, and state importance of the efficient use and allocation of healthcare resources.
4. As a novice, demonstrate beginning knowledge of health care policy, finance, and regulatory environments by the coordination, evaluation, and modification of care to patients to ensure safety and quality, apply established evidence-based best practices, and the management of confidential information technology for seamless care and transition within health care systems.
5. As a novice, recognize professional values such as caring, advocacy, altruism, the preservation of human dignity, truth, justice, freedom, equality, ethics, integrity, civility, respect, and cultural competence in the pursuit of excellence of the Christian leadership and service of professional nursing.
6. As a novice, describe the promotion of the profession of nursing through leadership activities in the implementation of evidence-based practice standards, safety and quality care improvement, legal and patient advocacy, and participation in professional student nursing organizations.

7. As a novice, engage in self-care and reflection to prepare for clinical demands; recognizes the importance of growth to professional competence within the program, and understands the need to participate in life-long career and professional development.

Student learning outcomes (new):

1. Demonstrate a basic understanding of clinical reasoning and evidence-based nursing practice to holistically address the needs of diverse individuals.
2. Demonstrate knowledge of the interprofessional team and its role in health outcomes.
3. Demonstrate knowledge of professional, legal, ethical, and regulatory standards for safe nursing practice.
4. Demonstrate how healthcare systems technology helps to coordinate safe, quality, and equitable care.
5. Recognize how professional values influence one's Christian service to others.
6. Demonstrate safe, quality, evidence-based practice in the non-complex care settings.
7. Demonstrate practices of self-reflection to improve learning.

Notes

² Any change to a cross-listed course requires the signature of both department chairs or program directors overseeing the course to ensure that the courses stay in sync. This includes courses taught at other campuses (e.g. BIBL 101 and BIBO 101).

³ For undergraduate majors, a minimum of 30 hours is required. These programs must have a minimum of 6 elective hours, unless the requirements of external accrediting bodies make it impossible. Master's programs must include a minimum of 30 hours, and doctoral programs must include a minimum of 30 hours beyond the master's.

⁴ When a department/school or dean proposes closing a program, approval routing follows the typical process beginning with the department/school. An administrative proposal by the provost or senior vice president for academic affairs would follow the "provost-proposed" routing on the chart.
