Notes

² Any change to a cross-listed course requires the signature of both department chairs or program directors overseeing the course to ensure that the courses stay in sync. This includes courses taught at other campuses (e.g. BIBL 101 and BIBO 101).

³ For undergraduate majors, a minimum of 30 hours is required. These programs must have a minimum of 6 elective hours, unless the requirements of external accrediting bodies make it impossible. Master's programs must include a minimum of 30 hours, and doctoral programs must include a minimum of 30 hours beyond the master's.

⁴ When a department/school or dean proposes closing a program, approval routing follows the typical process beginning with the department/school. An administrative proposal by the provost or senior vice president for academic affairs would follow the "provost-proposed" routing on the chart.

12 Quizzes	100 (10 points each, drop 2)
Event Management Project	200
Exams (2)	200
Accountability/Participation	100
Presentations	100
Chapter Questions	100
Case Studies	100
Final Exam	100

Case Studies

The purpose of each case study is to present you with a ‘real life’ example of a topic area within sport management and allow you to apply what you have learned to analyze of that area. Each case study will include 1-3 questions that will need to be analyzed and discussed using information from both the case study and course materials (lectures/readings). Be sure to read the instructions for each case study that are posted in Canvas. The case studies will have a written component (case study paper) and an in-class discussion (case study analysis). Please note that the in-class component of the case study is a crucial component of the class.

Sport Event Management Project

As part of the final sport event management project, each group will be required to submit a series of checkpoint sections to be included in their final paper. All due dates are listed on the course outline and in the "Sport Event Management Project" section of the syllabus (see below). For this project, you are going to develop a sport event and engage in all aspects of event development, planning, implementation, and evaluation as if you were actually going to carry out the event. The purpose of this project is to provide you an opportunity to integrate all areas of event management that are covered throughout this course. You are encouraged to be creative and inventive when completing this project. Groups will be assigned for this project.

Attendance

Two (2) unexcused absences are allowed. Each additional unexcused absence will result in a 20 point reduction in the Accountability/Participation grade for each occurrence. **Two (2) tardies** are allowed. For each tardy after two, one point will be deducted from your final class average.

****If you stop coming to class, it is your responsibility to drop the class. Names on the roll at the end of the semester, will receive an F for non-attendance.**

Any absence not excused within one week of returning will be unexcused. It is your responsibility to inform Dr. Wright when you come in late. Missing class because of working at a job or helping a friend is not excused. Leaving early or returning late from holidays is not excused.

Late Work:

All make-up tests, if allowed, will be available for one week after the absence. If you miss the make-up, you will receive a grade of zero. Make-up tests will be allowed if the student has a **documented excused absence**. Generally, students will not be allowed to take more than one (1) make-up test and must take the make-up test within the timeline.

Cell Phones

Phones and watch devices are to be put away (out of sight) when in class. They may be used only as part of a class activity directed by the professor. For each incidence your phone is used in class, 20 points will be deducted from your accountability/participation grade. Refusal to honor a professor's request is showing disrespect and you will be asked to leave the class.

Participation:

Students are expected to participate in activities of the class, which include, but not limited to: cooperative learning activity, class speaking assignments, game play, field trips, and active learning activities. Failure to participate will reduce your Accountability/Participation Grade by 20 points for each event. Students who refuse to participate will be asked to leave the class.

Quizzes

Quizzes will be taken over sections of information from your reading assignments. Quizzes missed for any absence will count as a zero. Quizzes are not made up.

Research and Presentations

Each student will make a research presentation on your selected study, which is a summary without notes.
