Change of Degree program from BS in “Management” to B.S. in “Business Management”

Rationale for adding the word “Business” to the B.S. in Management program.
The rationale for requesting a name change to the B.S. in Management program is to more clearly communicate to students and potential students that this degree focuses on the environment of business organizations. In keyword searches, potential students may not readily find ACU-Dallas as a viable option if they are looking for a business degree. In addition, a name change is consistent with and reflects the program's learning outcomes.

The B.S. in Management degree offers students the Program Learning Outcomes of:

1. Faith and Ethics (Value)

Reason and make decisions from an ethical perspective informed by Christian principles.

2. Business Knowledge (Know)

Demonstrate mastery of substantive business knowledge across multiple knowledge domains.

3. Professional Skills (Do)

Exhibit foundational skills of a business professional necessary to serve and lead.

These Program Outcomes indicate a focus on business knowledge across multiple business domains and foundational skills for a business professional.

Notes

¹ Any change to a cross-listed course requires the signature of both department chairs or program directors overseeing the course to ensure that the courses stay in sync. This includes courses taught at other campuses (e.g. BIBL 101 and BIBO 101).

² For undergraduate majors, a minimum of 30 hours is required. These programs must have a minimum of 6 elective hours, unless the requirements of external accrediting bodies make it impossible. Master's programs

must include a minimum of 30 hours, and doctoral programs must include a minimum of 30 hours beyond the master's.

³ When a program faculty or dean proposes closing a program, approval routing follows the typical process beginning with the program. A proposal by campus academic administration or senior vice president for academic affairs would follow the "proposed by the Senior VPAA" routing on the chart.
