Course Number: **BI00 353** or Degree Plan(s):

The Abilene campus requested several minor changes in this course (lecture/lab) to make it more clear what the course covers, who it is for and to eliminate confusion on that campus with a similarly named Microbiology course (BIOL 355). The changes proposed are as follows: 1. Title change 2. Course description change 3. Course number change

Here are the changes proposed:

Course title change:

Current course title: General Microbiology

Proposed new name: Microbiology for Nursing and Allied Health

Shortened Banner/transcript title: Microbiology Nurs/Allied Health

Course Description changes:

Current description: Principles of general microbiology including immunology, pathogenic microbiology, environmental, and industrial microbiology. Not for biology majors.

Proposed new description: An overview of the structure, function and genetics of microorganisms, with an emphasis on pathogens, including their spread and control, interactions with human hosts and the host immune response.

Change of course number:

Current course numbers: BI00 353

Proposed new numbers: BI00 253

Notes

¹ Any change to a cross-listed course requires the signature of both department chairs or program directors overseeing the course to ensure that the courses stay in sync. This includes courses taught at other campuses (e.g. BIBL 101 and BIBO 101).

² For undergraduate majors, a minimum of 30 hours is required. These programs must have a minimum of 6 elective hours, unless the requirements of external accrediting bodies make it impossible. Master's programs must include a minimum of 30 hours, and doctoral programs must include a minimum of 30 hours beyond the master's.

³ When a program director or dean proposes closing a program, approval routing follows the typical process beginning with the program. An administrative proposal by the provost or senior vice president for academic affairs would follow the "provost-proposed" routing on the chart.
