

RESEARCH & SCHOLARSHIP

Through our Research and Scholarship Honors Track, students combine curiosity and intellect to confront crucial questions and dilemmas of our era. With peers and faculty, students learn how knowledge is constructed, chart new territories of discovery and insight, and deepen our understanding of the world.

PURSUE EXCELLENCE IN RESEARCH AND SCHOLARSHIP.

Explore, investigate, and advance new insights and knowledge, regardless of your academic background or research experience.

ABOUT

Our Research and Scholarship Track provides experiences designed to foster academic excellence and intellectual curiosity. Through rigorous inquiry, critical thinking, and scholarly collaborations, students aim to produce and share knowledge while gaining advanced academic skills.

HIGHLIGHTS

Fulfill your Honors College requirements while also developing a passion for research and discovery

Engaging Courses: Take one course with an approved contract that challenges you to participate in undergraduate research and scholarship.

Interactive Colloquium: Engage in discussions and collaboration with faculty and fellow students in a Honors colloquium focussed on research and scholarship.

Activity Credits: Get hands-on experience through one activity credit related to scholarly research.

BENEFITS

Intellectual Growth: Expand your knowledge base and stimulate your intellectual curiosity through in-depth research and scholarly inquiry.

Skills Development: Mature in independent thinking, critical thinking, and written and oral communication skills desired by employers and graduate and professional degree programs.

Academic Excellence: Enhance your academic credentials and become a stand-out candidate for advanced degrees and prestigious scholarships
