Dear Proposals Committee,

We have some abstracts to review for the Research Festival. There are two sets. Basically you give a yes or no. If you put no, please say why. Here is the [Final Accept or Reject Form](#). Please do this by **Thursday, February 19 (this Thursday) at 10 PM**. (I know it is a quick turn around.)

The first set has 19 abstracts which have been reviewed by their departments. All scored at least a 2. The instructions to the departments say that abstracts that score 2 in any category may not be accepted depending on room. We should have space (barely) for everyone. So we could just accept all of them. Or we can take a second look at them which is what we did last year.

The second set is from nursing and psychology who did not review their abstracts. So we will look through and say yes or no.

For both sets, **(unless a majority email back and say let's just accept all the ones with 2's)**, please go to the [Final Accept or Reject Form](#) to record your choice.

I'll then accept any that have a majority of yeses.

Please do this by **Thursday, February 19 (this Thursday) at 10 PM**.

Thanks!

Autumn

On the unreviewed, (I forgot to blame Social Work too), they just turned in their reviews.

So you do NOT need to review

SS13, SS03, SS32, SS01, and SS06.

Done!

Easiest committee work ever. :)

Kelly

That's what I go for with committees I chair. Helps me keep people doing things for me. :D
