What did the teacher do that was effective? Be specific and name the actions that helped you as a learner (for example, particular assignments, discussions, presentations, etc.)

Well prepared.

I enjoyed the deep discussions in class that gave us a deeper understanding of the subject matter.

Explained well

Yes

I think he did a good job at discussion.

He gave good reviews.

Made me really learn the information because of how hard this course was.

Made me think on a higher level and to think better critically.

Had a passion for the subject and delivered the lessons with said passion and clarity. It was a blessing to be in this class and taught by this professor.

He, taught us in an efficient manner, and also gave us a lot of help when it came to grades.

He had us write reflection papers on each book of the OT which helped us process and relate to the information

Cha provided us with opportunities to do well on his quizzes and tests

Kept Us interested and was enthusiastic about what he was teaching and provoked us to think deeper the what was on the surface

Gave study guides that required reading, but was relevant to tests and quizzes. Daily quizzes and papers were very motivating. Professor also gave credit to stdents who earned it.

The reflection papers were helpful, and made me think personally about my views

Lectures were interesting and informative. I learned a lot about the history and context of the books and the metaphorical meanings in the books. It was challenging but I have learned a lot.

Having PowerPoints for his lectures helped me be able to focus on his lesson and understand his points.

What specific recommendations do you have for the improvement of this course? Name some particular actions that the professor could take to improve learning in the class.

More variety in course work and classroom environment.

Make testing more comprehensive to the lessons.

None

Yes

I would word the test questions differently.

None

Make it less difficult.

Keep having dr cha teach it.

None come to mind; I have no complaints.
I would say to make the tests easier.
I would suggest making the test more relatable to the main points discussed in class.
maybe less readings or hw assignments, they were pretty much nonstop the whole semester
None.
I thought it was fine as is.
N/A
Nothing
The only thing I can think of is grading papers in a timely manor. It is hard to know how you are doing in the class if you don't have any grades.
