RE: Course Application for KINE 366 – Assessment of Injury II

After reviewing the course application and syllabus, the library can adequately support the proposed course. Please let assigned faculty know that they can contact the library's Exercise Science Liaison Gary Oliver (oliverg@acu.edu) for specific resources that the library needs to purchase for the course. Thank you for letting us examine the course proposal.

Re: Review of KINE366—Assessment of Injury II

Dear Professor Harriman,

Thank you for submitting the syllabus for KINE366—Assessment of Injury II. I reviewed the syllabus based on the ACU application requirements. I find the syllabus to meet all requirements, except that you will need to make your formatting (font, indentation, etc) consistent throughout the document.

This letter is not meant to be a final approval in the course application process. Your department chair and members of the council may have questions or comments of their own.

Thank you for allowing the Adams Center team to review your course application. The instructional design team would love to work with you on your syllabus, as well as the design, development or revision of this and other courses. If there is anything else we can do to help you, please feel free to let me know.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Beth Huf", is displayed on a light beige rectangular background.
